

Come discover delightful new ways to see your best reflection!

 **Art** of **Natural**™ Perkshops!
where faces learn to love their future™

The **Art of Natural** comprises 4 elements which, together, weave the fabric of a vibrant image—**face-flattering colors, pure protective makeup, therapeutic skin care, and harmonious contouring**—the magic equation for a visible lift. Each of these elements is a topic in the **Art of Natural** series of classes for women.

Whether you're simply considering a switch to natural products, or you've advanced along the healthy spectrum to full-fledged Organic Woman, our **2-hour perkshops will give you ideas and inspiration to enduringly enhance your look.**

Select your favorite techniques from our **easy, do-it-yourself approaches** and create lasting results you will love. These surprising natural strategies can be added into even the busiest schedule—you decide which ones fit best in your appearance-enhancement time window.

Attend 1, 2, 3 or 4 sessions—there are **perks** for participants at all classes. You are warmly invited to join us and recharge your beauty batteries!
